ADDENDUM NO. 2

Date: September 11, 2019

Request for Statement of Qualifications (RSQ) 20-0901

CR 455 Design

It is the vendor's responsibility to ensure their receipt of all addenda, and to clearly acknowledge all addenda within their initial bid or proposal response. Acknowledgement may be confirmed either by inclusion of a signed copy of this addendum with their response by completion and/or return of the addendum acknowledgement section of the solicitation. Failure to acknowledge each addendum may prevent the bid or proposal from being considered for award.

This addendum DOES NOT change the date for receipt of bids.

Questions/Answers:

Q1. If we are needing more lines for the Team Composition Form for both our role and sub-consultant's roles, should we submit another sheet? Or does the excel workbook need to be unlocked?

A1. If needed, submit an additional form.

Q2. In the proposal Section 2, Tab 2, Attachment 2, do the projects within the last three years have to be designed within the last three years or does construction have to be completed in the last three years? If so, is that only for three projects or for all five projects that are allowed to be provided?

A2. Projects must have been designed within the last three years. Also, the solicitation requires at least three verifiable references, but firms can submit up to five references if they prefer.

Q3. Can you forward any and all environmental reports associated with the previously completed PDE Study on CR 455?

A3. A preliminary engineering report for CR 455 (Hartle Road) Extension from Hartwood Marsh Road to SR 50 was created in January of 2007. This report has been added to the website as Exhibit G for your review and records.
