Mechanical Guidelines

Mechanical Code Inspection Requirements for "Change out, Replacements and Additions"

The following items must be on site and available to the inspector at time of final inspection. The inspector will use the provided information to do their inspection; after the inspection is completed, the inspector will bring the information to the office and it will be placed in the permit file.

- A. Lake County "Scope of Work - Mechanical Change Out" form BF65 revised September 29, 2017. The form must be signed and legible, with all requested information provided. Incomplete forms will result in a failed inspection, with re-inspection fees.
- B. BF65 Part B requirements for partial system placements must have all support data on site at time of inspection.

A FINAL MECHANICAL INSPECTION (Code 380) MUST BE SCHEDULED AND APPROVED TO CLEAR PERMIT FROM SYSTEM

The forms listed above may be obtained online www.lakecountyfl.gov (under Building Services Forms & Checklists).
